QUICK REFERENCE GUIDE

AutoPlay

DVD RW Drive (G:)
64-0000-03840-J

☐ Always do this for software and games:

Install or run program from your media

Run Setup.exe
Publisher not specified

General options

Open folder to view files
using Windows Explorer

View more AutoPlay options in Control Panel

Setup

Install the VMS
The vehicle management system provides user interface to manage car and play live video.

Install the Player
The Player provides user interface to view the playback video.

Install the Register Server
The register server provides car information for VMS.

Install Database(For Register Server)
Install Microsoft SQL Server 2008 R2 Express and Register Server data schema.

User Manual
Provides VMS and register server user manual.

Browse CD
Before install register server and MRVMS, please make sure you have dotnet 2.0 and VC2005 runtime library installed on your computer or you can find it in the Environment folder.

Login

MRPlayer software is located on included DVD. Insert DVD into your computer and follow **on-screen instructions to install** for video playback.

Once software is loaded, a **Setup** window will open. Select second option to **install the player**.
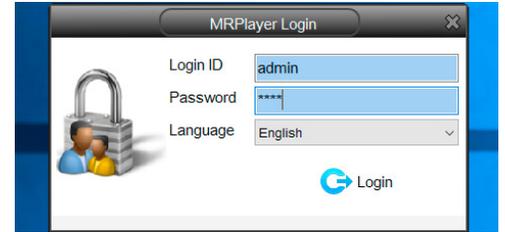

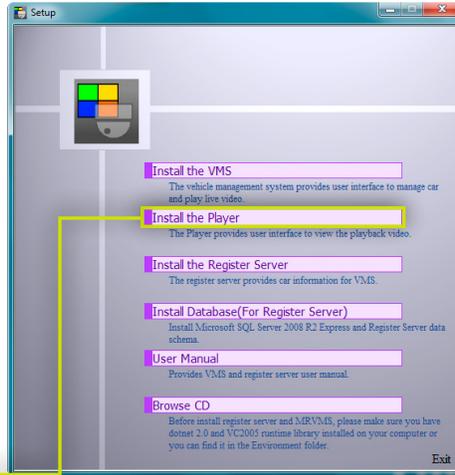

Pull the SD card from the DVR and insert it into your computer and the **MRPlayer Login window** will appear. To log into the software for the first time, please use:

Login ID: **admin**
Password: **1111**

(Both Login ID and Password can be customized in **Settings** after initial login.)

CAMERA VIEWS SELECTION: Choice of 1 or 4 camera views.

CAMERA CHANNEL SELECTION: Cycles through the camera views if you are in 1 camera mode.
